「展翅翱翔」的開合橋 Movable Bridges "Flying Freely"

為配合海上航道的交通要求，我們分別會在淘·童夢之園及演·藝創長廊段興建兩條開合橋。日後在有需要時，開合橋會開啟，船隻便可進入近岸水域。兩條開合橋的設計意念乃取材自展翅翱翔於維港天際的海鳥。

淘·童夢之園段的一號開合橋 Movable Bridge No.1 in the Play Wave Section

In order to comply with the marine traffic requirements in the fairways, we are constructing two movable bascule bridges in the Play Wave section and the Art Wave section respectively. In future, vessels can enter the offshore waters after the movable bridges open. The design concept for these movable bascule bridges was inspired by birds flying freely above Victoria Harbour.
